| Project Name | Inventory Management System for Retailers |

TASK

➤ Create UI to interact with application

- Registration Page
- Login Page
- Display items in the Dashboard
- Adding items
- Test it

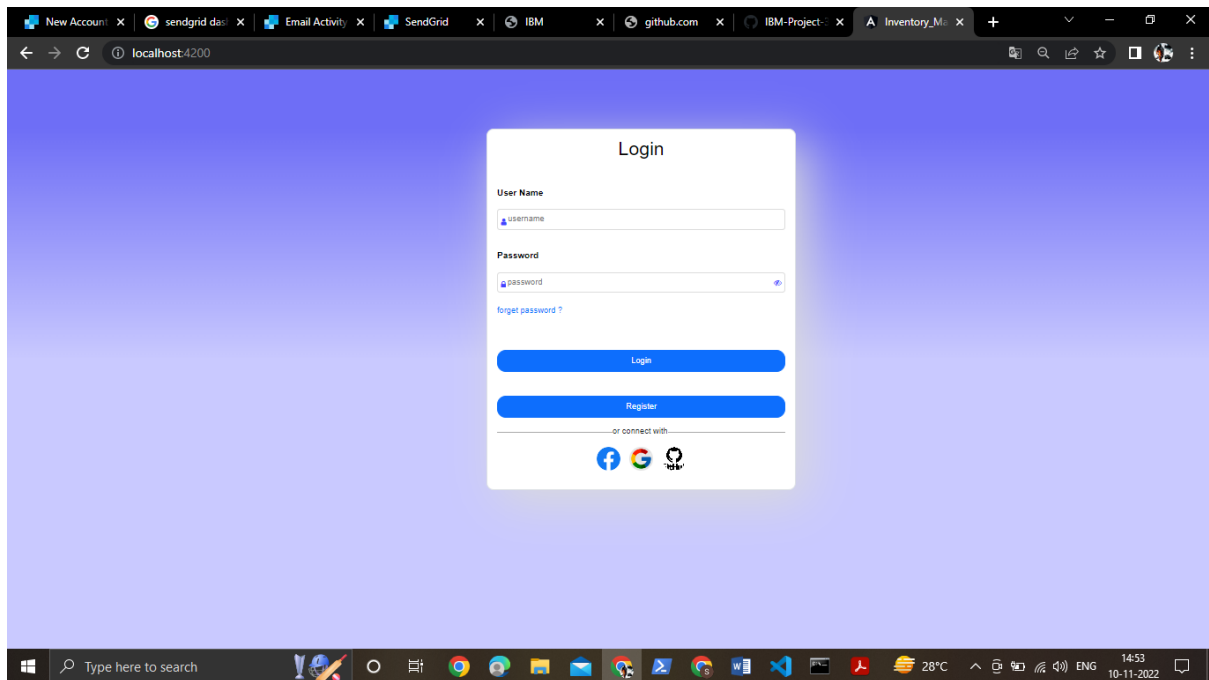

➤ Create IBM DB2 and connect with Node.js

Create UI to interact with application

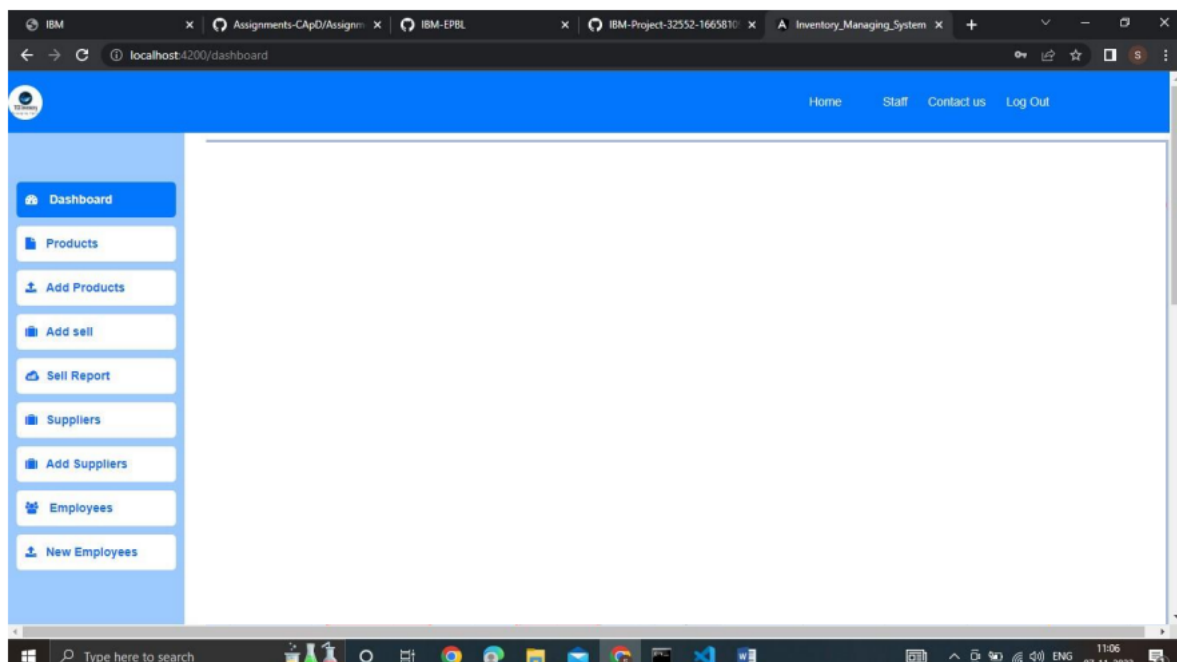

Registration Page

The screenshot displays a web browser window with multiple tabs open. The active tab is 'Inventory_M'. The address bar shows 'localhost:4200/signup'. The main content area has a purple gradient background. In the center, there is a white card titled 'Create New Account'. The card contains three input fields: 'User Name' (with a placeholder 'username'), 'Email' (with a placeholder 'Email'), and 'Password' (with a placeholder 'password' and a toggle icon). Below the fields are two blue buttons: 'Register' and 'Login'. A link 'Already Have an Account' is positioned between the two buttons. The Windows taskbar at the bottom shows the search bar and various application icons. The system tray on the right indicates the temperature is 28°C, the time is 14:53, and the date is 10-11-2022.
